

Product Creation Flow & UI Layout

Step 1 — Basic Product Information

Admin enters title, price, discount price, category, collection, fabric, jari type, origin, silk mark,

measurements, wash care, and description. **Step 2 — Main Saree Images (Color Variants)**

Upload multiple main images, enter color name & optional hex color, and attach optional videos. **Step 3 — Detailed Saree Parts (Body, Border, Pallu, Mundhi, Blouse)**

Each section allows color, optional hex, and multiple images. These appear with labels (e.g., 'Blouse') on product details page. **Step 4 — Videos**

Admin uploads supportive videos. **Step 5 — Stock (Optional for future)**

Admin enters stock per color variant, not auto-updated yet. **Step 6 — Pincode Delivery Checker**

Admin manages deliverable pincodes and estimated days. **Step 7 — Review & Save**

Admin reviews and publishes the product.
